Subject: FW: Here are some of the key Media reports regarding PFOS contaminated drinking water

Jason

Per our discussion yesterday—here are some recent press clips related to the Wolverine site from Lynn McIntosh in Rockford, MI. I spoke with her for some time. She has a lot of gathered information and is looking to dialog with individuals at EPA. Her characterization of the situation is also one of utter frustration. Her telephone number is 616 866 4334. I indicated you would contact her.

Thanks

Joe Dufficy, Chief

Subject: Here are some of the key Media reports regarding PFOS contaminated drinking water

Dear Joseph,

Thank you for taking the time to speak with me today. We are in the processing of organizing all of the media reports regarding this growing health crisis and hope to send that document tomorrow. Meanwhile, these six reports strongly represent our concerns.

We are happy to answer any questions.

Thank you,

Lynn

NOTE: The MLIVE articles are written with great detail. The reporter has a lot of working knowledge about PFOS. He has been covering all of the stories regarding the Wurtsmith Air Force base as well.

1. WOOD TV 8: News coverage on legal and illegal dumping of contaminated wastes containing high levels of PFOS.
